

Video Assignment Directions

This section of the test contains three multiple-choice questions related to a video that you will view on the screen.

The video will automatically begin playing once you advance to the next screen. There will be 90 seconds of blank air time before an image appears. During these 90 seconds, you should familiarize yourself with the classroom context of the video and the test questions.

Once the video begins, you will NOT be able to pause, stop, or replay it. Therefore, watch and listen carefully.

Click **Next** when you have finished reading these directions and are ready to begin the video assignment. Put on your headset before proceeding.
